Dear Friends and supporters

We have been under self isolation since Mid-March which meant our services came to a virtual standstill. We were able to reach others by phone and messages through social medias, but it has been a trying time. Sadly, 3 of our cancer group members passed away in May. News like this means we are as determined as ever to continue our efforts to reach the community with important health awareness information, advice, and support. It is very much needed. Thank you all for your support. We hope you and your loved ones are keeping safe and well. Best wishes from Jerusalem Carol, Suhiela and the rest of the team
